

Whip Hose

PART NO: *PLI-WP*

The PLI Whip Hose is an integral part of the pump's delivery and safety feature. A short flexible high pressure hose allows the operator to step back from the valve and still have control of flow and isolation via the stainless steel ball valve. There is a universal Z-swivel with a 90 degree elbow and a LA114 lube adaptor, these items give greater flexibility when connecting to the valve. The pressure gauge indicates the delivery pressure at the lubrication fitting. This safety whip has a high pressure full flow quick connector, for easy connection/disconnection to the supply hose.
